- **PRESENTATION**
- VALUES
- MISSION
- ICT TOOLS
- THE TEAM
- CONTACTS

Insurance Connect is a publication specialized in the insurance sector. It was founded in October 2011 following the intuition that there was a hidden need in this complex and continuously evolving field: to provide high quality, specialized, continuous, structured information in line with contemporary multi-medial and multi-channel communication. Thanks to these values, guaranteed by a team of capable and acknowledged experts, Insurance Connect immediately caught the sector's attention, and has gained a place of primary importance in the publishing world, distinguishing itself from other competitors already present.

Our main activity consists in the production and circulation of qualified information and updates, presented with multi-medial contents and circulated by means of tools differing in themes and language according to the categories of recipients. Part of our core business, too, is organizing conferences and forums, which are fundamental opportunities for discussion and training, together with the offer of content and media support in coincidence with events concerning the most important topics involving the insurance system.

### QUALITY OF INFORMATION

Our aim is to offer high quality information, capable of providing tools and contents for continuous in-depth analyses and updates. In order to implement this in an extremely specialized sector as insurance, a deep knowledge is necessary of the topics, norms, processes and strategic and decisional logics specific to this field.

We can rely on a specialized team of journalists with a solid experience in the field of information and a deep knowledge of the world of insurance.

#### **INNOVATION**

Our magazine is something new, founded in a time when communication is undergoing radical changes and is in many aspects continuously evolving: the tools, the way a product is used, the language, the types of target are radically different compared to a few years ago.

In order to create an effective ICT tool it is therefore necessary to be able to understand these changes and know how to structure a calibrated offer, by paying particular attention to each aspect.

### MULTI-CHANNELLING and MULTIMEDIALITY

These are two of the features which make our magazine unique in the field of Italian insurance publishing.

Through our activity we have interpreted the trend towards innovation by working on the ways of conceiving, structuring and circulating information. Multi-channelling and multimedia represent the expression of an evolution in progress in the whole world of publishing, and which today can also be applied to the world of insurance. Insurance Connect meets this need by means of a multi-channelling offer, by circulating information:

- by using TRADITIONAL paper methods
- thanks to opportunities of direct contacts during CONFERENCES
- through the web and email, which are always accessible from any COMPUTER, SMARTPHONE and TABLET

Consistently with the evolution of communication, which is becoming more and more polyhedral, and in order to try and offer information as complete and varied as possible, we are counting on the combined use of different media, proposing contents in different forms which interact by integrating:

- texts
- images
- VIDEOS
- blogs
- social networks
- surveys
- structured in-depth ANALYSES

#### **INDEPENDENCE**

Insurance Connect is an independent and autonomous publication. We are aware that the insurance field plays an important social role because it concerns the protection of people and property. Our means of information aim at describing in a balanced and complete way the current situation of the insurance market and the economic system in which it operates, defining strategies, models and processes that are indispensable for all future scenarios.

### INFORMATION FOR THE SECTOR

Insurance Connect wants to be a point of reference for information and communication addressed to the world of insurance and the professionals working in it. Our b2b tools (Insurance Review, Insurance Trade and Insurance Daily) are therefore addressed to insurance companies, agents, brokers and mediators, category associations, banks and credit institutions, law offices, academicians, consultants and social welfare institutions. Our team of journalists every day guarantees high quality information, carefully treated in its content and form. Multi-channelling and multimedia, which distinguish our activity, widespread information and adapt it to all single needs; our publishing tools are based on web and mobile platforms and services, conferences, printed paper, and applications compatible with smart-phones and tablets. Many opportunities of discussion, updating and in-depth analyses are offered through:

- articles
- INQUIRIES and reports
- observatories
- interviews and VIDEO-INTERVIEWS
- ROUND TABLE CONFERENCES among sector protagonists
- CONFERENCES
- training events

### THE ONLINE PLATFORM

**Insurance Trade** is our online platform, an information and discussion point for the whole Italian insurance community. A team of specialized journalists every day proposes and updates in real time fresh contents, organized in different forms (news, market data, observatories, analyses and inquiries, video and text interviews, sector researches).

Making this platform unique in the Italian world of insurance are the high quality of information, structured on various update levels and in-depth analyses, and the multimedia nature of the contents, as well as easy fruition by users, so that subscription to the portal is for free. An area of the site is dedicated exclusively to sector events, the coverage and circulation of which is ensured through live web broadcasts, videos and excerpts. In order to offer pluralistic information giving space to different opinions, the portal offer is sided by a Blog section, which can rely on the prestige of collaborators with a ten-year-long experience in the field of insurance.

Insurance Connect is also present within the community of the professional social network Linked-in with a company page and a group, in which every day articles and news from the insurance and financial world are proposed as suggestions for comments and debate. It also has a Twitter account and a dedicated Facebook page, updated every day.

### INSURANCE REVIEW @

### PERIODIC INFORMATION FOR THE SECTOR

Insurance Review, a monthly b2b review, founded at the beginning of 2013, young and innovative in its conception, is a successful presence in the world of Italian insurance ICT. Appreciated for the quality of its contents and dynamical and easy to read graphical layout, it addresses the whole sector and professional figures involved in the insurance, juridical and financial world, with the aim of offering in-depth, updated and unbiased information. Owing to the variety and quality of its contents, it is widely considered a true and proper tool for training, updating and in-depth analyses. It presents the evolving scenarios of the market, analyses concerning main business trends and the dynamics related to the most important topics concerning the insurance field. More specifically, articles regard:

- STRATEGIES
- ANALYSES and MARKET data
- AGREEMENTS and COLLABORATIONS
- ORGANIZATIONAL and OPERATIONAL models
- distribution POLICIES
- Evolution of PRODUCTS

# ferencesconfe

## rencesconfere

The organizing of conferences by Insurance Connect, in continuous development and evolution, further enhances our activities. Conferences are addressed to a specialized audience (companies, in all their functions, mediators, consultants and sector operators) but are also open to professional figures coming from the economic, industrial, financial, juridical and professional training world. Besides representing an important chance for direct meetings and discussions, our events are true and proper opportunities for training and updating. Topics are chosen among the issues of greatest interest and relevance, with the aim of interpreting as best as possible current changes and hidden needs. Content level is ensured thanks to the involvement of representatives of prestige in insurance, economic and juridical fields as speakers.

# conference an

Besides conferences, Insurance Connect is active in giving support and being present as partners in coincidence with other sector events, such as, for example, round tables and observatories. Our competencies enable us to individuate the most important topics, the way to approach them, and the most suitable speakers for dealing with them. Said activity can be completed by coordinated and multi-channel broadcasts of the events, thanks to our ICT tools.

## ΔΜΤΗΕ ΤΕ

"Gathering together is a beginning, staying together is a progress... working together is a success." (Henry Ford)

Not even the best ideas can be implemented in a structured project and evolve with time without an effective and competent team. We can count on a team made up of professionals with different backgrounds, working with collaborative mindsets and synergy aimed at achieving shared goals. The journalists who take part in the project have a deep and experienced knowledge of the insurance sector, and the know-how indispensable for interpreting the dynamics of the market and circulating them according to the ideas of multi-channelling and multimediality.
